# GENESIS & VANGUARD LINES

WE  
WILL  
**RACK**  
**YOU!**

# ESSENZA MOVES FORWARD

Essenza by Bassocontinuo continues to grow, expanding its offering with new Made in Italy, entry-level racks — crafted to bring high-quality performance and Italian design to a wider audience.

What was once a single, unified offering now evolves into two distinct collections: **Genesis and Vanguard Lines**.

Genesis, the line we started with, now expands its range with the introduction of the new double-wide rack, Neutron.

Vanguard, instead, brings a fresh perspective — introducing a new aesthetic, updated features, and a distinct performance identity.

*Tier 1*  
**GENESIS LINE**

*Our very first racks collection*
