

About StyleLine Audio Interfaces

The StyleLine Series of audio interfaces represents our ongoing effort to bring classic MIT performance to more affordable price points. Through advances in miniaturization, the StyleLine Series provides superior performance in an easy-to-install format that will fit into any

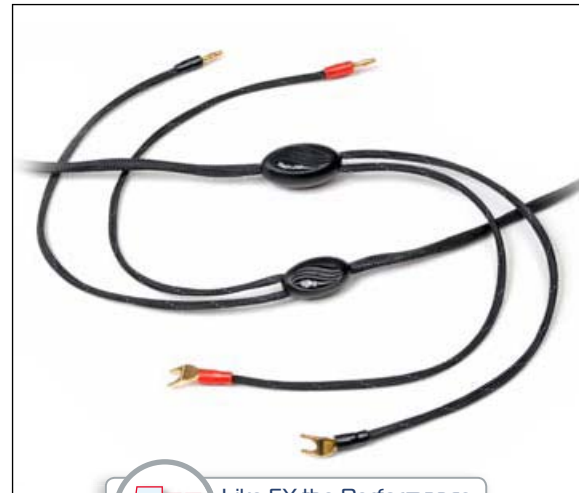

StyleLine 5 Speaker Interface

The plot below right is a conceptual illustration showing how Multipole technology works synergistically throughout the audio spectrum. Poles A & B provide an area of better bass, Pole C provide an area of better midrange, and Poles D & E provide an area of better highs. Together, they provide better bass, better midrange, and better highs –“like multiple cables in one!”™

2

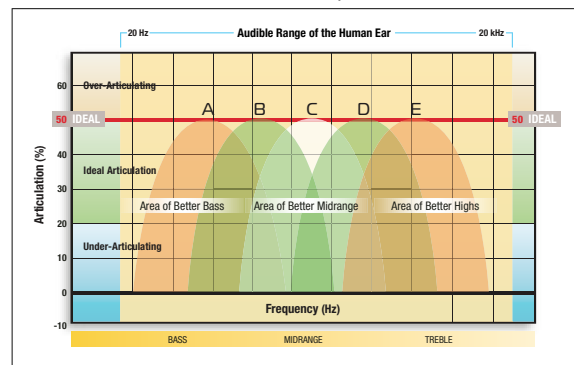

Features & Benefits:

- **Exclusive Multipole™ Technology**—Five Poles of Articulation deliver MIT Cables' classic performance to your system.
- **Multi-gauge construction with 0.999999 pure copper conductors**—The purest materials deliver superior conductivity for improved performance.
- **Highest-quality polyethylene (P.E.) insulation**—Reduces non-linear dielectric-based distortions for excellent low level detail and superior sound.
- **Gold-plated RCAs**—Secure connections assure best signal transfer.
- **Soldered banana and spade connectors**—interfaces most common amplifier and speaker systems.
- **Rugged over braided jacket**—increases durability and cable life.

5X Like 5X the Performance of Just Cable!

Tip: Read about Multipole Technology on Page A1 or visit our MIT Cables YouTube Channel at youtube/mitcables

StyleLine 9 Speaker Interface

The plot below right is a conceptual illustration showing how Multipole technology works synergistically throughout the audio spectrum. Poles A, B, and C provide an area of better bass, Poles D, E, and F provide an area of better midrange, and Poles G, H, and I provide an area of better highs. Together, they provide controlled bass, and smoother, more extended highs along with a lower noise floor –“like multiple cables in one!”™

Includes the iconn® interchangeable connector system (spades and banana connectors provided).

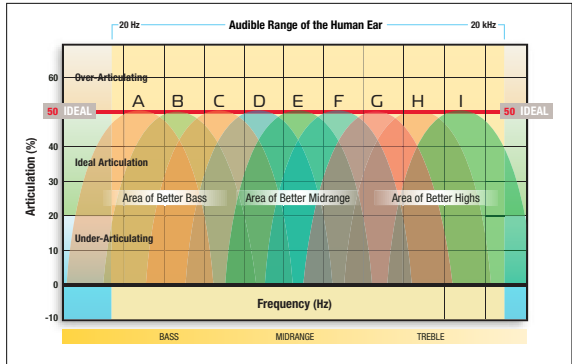

9X Like 9X the Performance of Just Cable!

2

Features & Benefits:

- **Exclusive Multipole™ Technology**—Nine Poles of Articulation deliver MIT Cables’ sophisticated performance to your system.
- **Multi-gauge construction with 0.999999 pure copper conductors**—The purest materials deliver superior conductivity for improved performance.
- **Highest-quality polyethylene (P.E.) insulation**—Reduces non-linear dielectric-based distortions for excellent low level detail and superior sound.
- **iconn™ interchangeable connector system**—provides a quick and easy solution to your connection needs.
- **Rugged over braid**—Increases durability and cable life.

SKU	DESCRIPTION	LENGTH

SL9S-12	" " "	12 feet
SL9S-15	" " "	15 feet

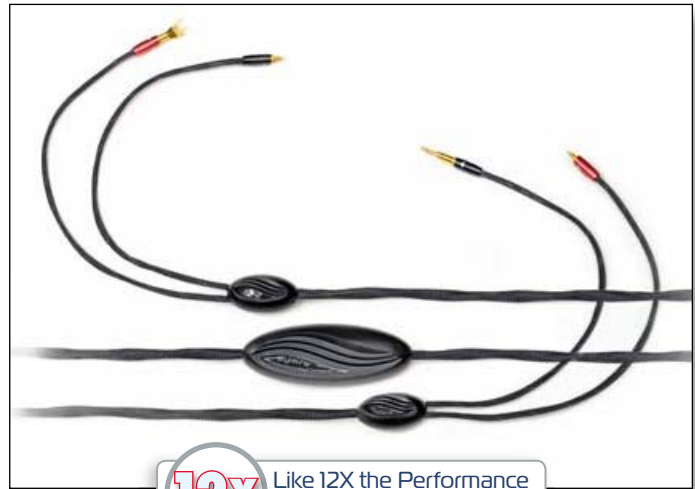

For Bi-Wired speakers:
Use StyleLine Jumpers—see page 2.8 for more information.

StyleLine 12 Speaker Interface

The plot below is a conceptual illustration showing how Multipole technology works synergistically throughout the audio spectrum. Poles A, B, C, and D provide an area of better bass, Poles E, F, G, and H provide an area of better midrange, and Poles G, H, I, and J provide an area of better highs. Together, they provide deeper bass, enhanced image and focus, along with an overall greater clarity—“like multiple cables in one!”™ Includes the iconn® interchangeable connector system (spades and banana connectors provided).

12X Like 12X the Performance of Just Cable!

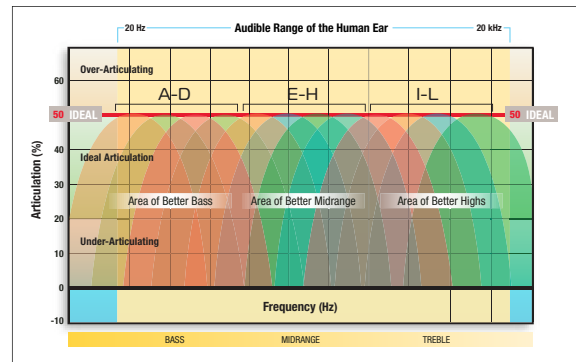

Features & Benefits:

2

- **Exclusive Multipole™ Technology**—Twelve Poles of Articulation deliver MIT Cables’ signature performance to your system.
- **Multi-gauge construction with 0.999999 pure copper conductors**—The purest materials deliver superior conductivity for improved performance.
- **Highest-quality polyethylene (P.E.) insulation**—Reduces non-linear dielectric-based distortions for excellent low level detail and superior sound.
- **iconn™ interchangeable connector system**—provides a quick and easy solution to your connection needs.
- **Rugged over braid**—Increases durability and cable life.

iconn® Connectors Included!

With the iconn™ pin-base connector system, you can choose from either the provided spades or bananas. See Page 2.9

For Bi-Wired speakers:
Use StyleLine Jumpers—see page 2.8 for more information.

A totally new concept in speaker interface connections!

No matter what your connection needs are, the solution is just a few seconds away. Whether it is spades, bananas or pins, the MIT® iconn™ system can provide a quick and easy solution. The iconn system foundation is the Pin Base™, which comes standard on all MIT speaker interfaces. The Pin-Base is threaded to accept iconn spades or bananas, making speaker interfaces work in any system configuration. Provided with red and black boots for a finished look.

iconn Pin Base *(used for all iconn connections)*

Used alone, solder-on Pin Base is perfect for in-wall speakers with push-pin terminals, and is the base for all iconn connectors listed below.

SKU	DESCRIPTION	QUANTITY
ICPB-4	iconn pin base	set of 4
ICPB-100	iconn pin base master carton	100 pieces

2

iconn Regular Spade—Universal Size!

For use on standard binding posts and terminal strips. The iconn regular spade screws onto the Pin-Base and is locked into alignment with the provided lock-nut. Machined from the highest quality materials and gold plated for a durable corrosion-free connection.

SKU	DESCRIPTION	QUANTITY
ICRS-4	iconn regular spade	set of 4
ICRS-50	iconn regular spades	50 piece bag

iconn Regular Banana

For use on recessed banana jacks and binding posts. The iconn banana screws flush to the Pin-Base for maximum contact. Machined from the highest quality materials and gold plated for a permanent corrosion-free connection.

SKU	DESCRIPTION	QUANTITY
ICRB-4	iconn regular banana	set of 4
ICRB-50	iconn regular bananas	50 piece bag

iconn Economy Spade—Universal Size!

A less expensive option to the regular spade that fits most popular binding post and terminal strip sizes. The iconn economy spade screws onto the Pin-Base and is locked into alignment with the provided lock-nut. Gold plated for a durable corrosion free connection.

SKU	DESCRIPTION	QUANTITY
ICES-4	iconn economy spade	set of 4
ICES-50	iconn economy spades	50 piece bag
