MiND 2
Connecting your Hi-Fi system to the world

The MiND 2 is the second generation of MOON intelligent Network Device. The control center of a MiND is our proprietary application running on an iPad, iPhone, or Android device. Not only does MiND 2 allow to access, browse and play the music you care for, it also gives you the control of your MOON Hi-Fi system for ultimate ease of use.

MiND 2 Technology Features

- Roon Ready device
- Tidal, with Tidal Masters support
- Deezer with Deezer Hi-Fi support
- Qobuz, with Qobuz Sublime+ support
